 Rush job

## HOW CUSTOM JEWELRY MANUFACTURING WORKS

- 1) Determine project **requirements & design**  
Drawings/photos, picture(s) from the internet, and/or sample item are helpful
- 2) **Initial estimate** (for approval) *based on requirements*
- 3) 3D **CAD** *based on requirements*
- 4) CAD **renders** (for approval), optional 3D **sample print** (for approval)
- 5) **3D print** the item(s) for casting
- 6) **Casting** in metal
- 7) **Polishing**
- 8) **Stone setting & assembly**
- 9) **Finishing** – final polish, application of surface finishes

Most jobs take 10-20 business days (2-4 weeks) after CAD render approval.

For more specific turnaround/delivery time please refer to the FAQ on our website
